Summary

Highly motivated **MERN Stack** Developer specializing in building responsive, efficient, and secure full-stack web applications. Proficient in React.js, Node.js, Express, and MongoDB, with hands-on experience in secure **authentication**, **API integration**, and **performance optimization**. Proven ability to deliver high-quality solutions, leveraging collaborative **GitHub** workflows and **version control**

Projects

1. Skilloria

Skilloria is a fully functional ed-tech platform developed using the **MERN stack** (MongoDB, ExpressJS, ReactJS, NodeJS). It allows users to create, access, and rate educational content through a seamless and interactive interface. Implemented secure **authentication** and **authorization** using **JWT**, with **passwords encrypted** via **Bcrypt**. Integrated **Razorpay** for smooth and secure **payment** transactions and **Cloudinary** for efficient file and media storage. Built **RESTful APIs** to ensure effective client-server communication. The application is **deployed** on **Vercel** and **Render**, with **MongoDB Atlas** providing cloud-based, high-availability data storage.

2. Taskify

Developed an end-to-end full-stack task management application featuring **secure registration/login** and comprehensive task management via **full CRUD operations**. The application leverages **JWT authentication** and **Bcrypt hashing** for data security, and utilizes **React Hooks** and **React Router** for seamless client-side state management and navigation. The solution was **deployed** on **Vercel** and **Render**, connecting to a high-availability **MongoDB Atlas** database.
